DM160i™
digital franking machine

No more wasted time or money

The DM160i digital franking machine quickly franks the correct tariff on each letter and parcel every time, so your postage costs are kept to a minimum.

Even when not in use, it minimises your costs. After a period of inactivity, it automatically enters a low-power sleep mode, so minimising your energy bill.

The DM160i Digital franking machine will save you money from the day it's installed; which you can do yourself, quickly and simply, even if you're not technically minded.

Save money every day

With a DM160i digital franking machine, every piece of mail you send costs significantly less than if you paid using stamps.

Suitable for even the smallest office

This compact machine sits unobtrusively on a desktop and its integrated weighing platform (up to 2.5kg), means there's no need for separate scales. It operates with minimal noise, so won't disturb other activities taking place nearby.

A flexible solution

It effortlessly processes up to 40 pieces of mail a minute and handles mail up to 9.5mm thick. Larger items are processed using tape strips. If you regularly need to process parcels or packages that weigh over 2.5kg, an optional weighing platform allows you to weigh items up to 35kg.

Easy to use

There's no need for a specialist operator or extensive training. The interactive menus displayed on the control panel are intuitive and simple to use. They're backed up by user-friendly instructions that lead even someone who's never franked mail before through each stage of a task.

Manage your time effectively

Up to five presets minimise preparation time for common jobs. And if you're always rushing to meet deadlines, you can advance the date and prepare mail ready for sending later in the week - perfect if you've time spare today and a hundred and one things that need to be mailed out tomorrow.

Digital Mailing Solutions

Print promotional messages on every envelope you frank

Don't just save you money; turn your mail into a powerful revenue-generating tool.

Get your mail opened and read

Printing a promotional message on every envelope you frank ensures your mail is more likely to be opened and read ahead of mail sent by your competitors. On top of this, our advanced ink-jet technology produces a professional impression every time. It's a simple and cost-effect way of letting customers and potential customers know your company has high standards.

Stay connected

Being connected to via IntelliLink™, means you have constant access to an invaluable suite of services such as re-crediting, Envelope Messaging, postal tariff changes and software upgrades, without the costs associated with a traditional analogue connection.

Monitor costs

INVIEW™, our web-based, easy to use, reporting feature allows you to:
• Have visibility of your postage expenditure by class and format
• Extract information and present simple graphical analysis
• Monitor spending to identify waste e.g. overuse of first class or large letter format

No more queuing for stamps

Re-credit your machine at the touch of a button. And get up to 55 days free credit by taking advantage of Purchase Power, our post now and pay later service. This also allows you to consolidate supplies and maintenance invoices onto a single monthly statement so minimising your administration costs.

A gateway to the future

The DM160i's digital meter indicia satisfies all current postal regulations, and the technology's flexibility makes the DM160i adaptable for the future.

The Benefits of MailMark™

This product is MailMark™ compliant. Digital Mailing Solutions customers have access to all the numerous features and benefits that MailMark™ can offer such as:
